

Dr. P,

I hope you realize what a wonderful thing it is that you do for people. I wanted to thank you not only for your amazing surgical skills and professionalism, but for your patience and kindness as a person. I can't express enough to you my gratitude to you and your staff for answering my endless questions and making me feel informed and comfortable with each procedure. (Not to mention the obvious and life changing results of the surgeries). I thank you for your extra time and effort to revise and redo previous procedures (at an extremely reasonable price 😊) as well as your willingness to take your time during surgery to ensure that everything is "shaped and contoured" to the best of your ability. It is obvious to me now why you come so highly recommended and for these same reasons I would without hesitation implore any friend, acquaintance, or family member to seek advice on plastic surgery of any kind from your office.

THANK YOU - And please have a wonderful Valentine's Day ... Year ... and life - knowing that you are

Very Appreciated!

❤️ Allison
